

CHRISTIAN VILLAGANTE

Graphic & Web designer

ABOUT ME

A dedicated, diligent, and hardworking 3rd-year Bachelor of Science in Information Technology student at Philippine Christian University. I combine a strong technical foundation in frontend web development and backend database management with a creative skill set in graphic design, photo manipulation, and advanced video editing. Known for my structured approach to organizing clean code and my friendly, collaborative nature, I am looking to secure an IT Practicum position where I can deliver impactful web, application, or multimedia solutions.

EDUCATION

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY

Philippine Christian University (Manila)
2023 – Present
(Expected Graduation: 2027)

- Current Status: Incoming 4th-Year Undergraduate Student
- Relevant Coursework: Information Assurance and Security, Database Systems, Web Development, Application Design.

PROFESSIONAL SKILLS

- Web Programming: HTML5 / CSS3 / JavaScript/ Python
- Database Engines: SQL / MySQL
- Video Software: Adobe Premiere Pro / DaVinci Resolve / CapCut
- Graphic Design Software: Adobe Photoshop
- Microsoft: Word, Excell, PDF

PERSONAL SKILLS

- Diligent & Hardworking
- Code Organization & Structure
- Friendly & Collaborative Communication
- Time Management & Adaptability
- Problem Solving & Analytical Thinking

LANGUAGE

- English
- Tagalog

PROJECTS & ACADEMIC EXPERIENCE

FRONTEND WEB DEVELOPER & DESIGNER

Project: Functionable Website Portfolio

- Developed an interactive frontend website utilizing clean, well-organized and modular HTML5, CSS3, and JavaScript architectures.
- Focused on seamless UI/UX workflows, optimizing responsiveness, cross-browser compatibility, and fast rendering times.

DATABASE & WEB APPLICATION DEVELOPER

Project: Online Book Store Web Application

- Engineered a dynamic database-driven e-commerce platform for browsing, filtering, and purchasing books using Visual Studio.
- Designed and mapped a relational database schema using SQL/MySQL to manage inventories, authors, book categories, and user accounts.
- Implemented backend data-retrieval logic to dynamically display book information and handle mock cart checkouts safely.

DIGITAL MEDIA & CONTENT MANAGEMENT SYSTEMS

Multimedia Asset Optimization & Technical Workflow Project

- Managed, processed, and optimized digital media assets using structured data workflows to ensure efficient file compression, rendering, and cross-platform compatibility.
- Leveraged digital media tools (Adobe Premiere Pro, DaVinci Resolve, Adobe Photoshop, CapCut) for technical visual asset creation, UI/UX graphic design, and media resource deployment.
- Configured and optimized high-definition digital media files, balancing resolution, bitrate, and rendering speed for fast-paced web and cloud storage delivery.

AWARDS

- 1st Year Outstanding Deanslister (June 18, 2024)
- 2nd Year Outstanding Deanslister (June 28, 2025)
- 3rd Year Outstanding Deanslister (June 2, 2026)
- Outstanding Performance in Object Oriented Programming (OOP) Certificate (April 30, 2025)
